## WORK EXPERIENCE

---

**Welkin Digital Private Ltd.**  
Frontend Engineer

Jan 2023 - Present

- Collaborated with a team to develop and implement safety technology solutions leading to a 25% increase in revenue.
- Implemented scalable APIs to ensure timely and high-quality delivery of features with a scalable, maintainable and performant build.
- Led the development of several features E2E, from identifying system requirement and partner dependencies.

## PROJECTS

---

### 1. Neos-Tube (Video library app) [ [Neos-Tube Link](#) ]

- Developed and implemented Neos-Tube, a mobile-responsive video library app with user authentication, video liking, playlist creation, and watch later functionality, resulting in a 20
- Managed playback history for recently watched videos
- Technologies: **React, Html, CSS, Material-UI, React-Router-Dom** .

### 2. Neos-tweet (Social media app) [ [Neos-tweet Link](#) ]

- Created Neos-Tweet, a mobile-responsive social media application enabling user authentication (Signup/Login) using JWT. Implemented CRUD operations for creating, liking, bookmarking, deleting, and editing posts. Additionally, users can add comments on posts.
- Implemented functionality allowing users to view other profiles, follow, and unfollow different listed users within the Neos-Tweet social media application.
- Technologies:: **React, Redux Toolkit, Tailwind CSS, React-Router-Dom** .

### 3. Shoe-Shoppers (eCommerce app) [ [Shoe-Shoppers Link](#) ]

- Shoe-Shopper is a user-friendly eCommerce platform with a smooth user interface and experience, offering a wide variety of the latest shoes.
- Features include Authentication (Signup, Login) using JWT, cart management, wishlist management, and product filtering.
- Technologies: **React, React-Router-Dom, Mockbee backend CSS**.
